

Diatom 17: 141-148 (英文)

原口和夫：余呉湖の珪藻

Kazuo Haraguchi : Diatoms from Lake Yogo, Shiga Prefecture, Japan

Abstract

Diatom assemblages in the sediment of Lake Yogo were examined, and a total of 180 taxa among 30 genera were recorded. Abundant taxa were planktonic, i. e. *Aulacoseira granulata*, *A. ambigua*, *Stephanodiscus carconensis*, *Cyclotella stelligera*, and *Asterionella formosa*.
